

BUILT BETTER. FINISHED BETTER. DELIVERED BETTER.

GRANDVIEW CABINETRY COLLECTION

SUMMER 2023 | WWW.GRANDVIEWCABINETRY.COM

PROUD TO BE AMERICAN-MADE

At Grandview Cabinetry, “American-Made” is a lasting principle that has been with us since our founding in 1946. It’s not just a gimmick or a slogan; it’s a promise. We view sourcing and making our products in the USA as our responsibility and honor. In fact, it fuels everything we do.

As one of the largest employers in Parsons, Kansas, we understand that Grandview Cabinetry is more than a company – it’s our community’s livelihood. For this reason, we strive to forge a legacy that goes beyond our high-quality cabinets. We source American lumber, support American manufacturing jobs, and produce American-made cabinetry because we know doing so strengthens our company’s family atmosphere and the homes we help build.

THE POWER OF PAINTED CABINETRY

Whether classic white for a clean, timeless look, or a bold blue for a modern statement, painted finishes offer unparalleled versatility in design.

Fresh and modern-looking, yet durable and easy to maintain, painted cabinets are an ideal way to transform multi-family dwellings into stylish, personalized, and inviting homes.

A GRAND SLAM WITH LAMINATE

For a cabinetry finish that covers all the bases, consider laminate. It has a sleek, contemporary look that rivals real wood; it's durable and long-lasting — resistant to chipping, scratching and dents. Furthermore, it's easy to clean and virtually maintenance-free. Easy installation and a budget-friendly price point make laminate cabinetry a home-run for many multi-family properties.

TRANSITIONAL

OUR RTF IS AN MVP

For a high-end Grandview Cabinetry look with an affordable price tag, consider a Rigid Thermofoil Finish (RTF).

RTF is composed of thin layers of vinyl that are bonded to a medium density fiberboard (MDF) surface via high heat and pressure. The RTF strengthens, seals and protects the MDF with a smooth, uniform finish. This attractive, low-maintenance, easy-to-clean surface is ideal for multi-family dwellings where cost and durability are primary considerations.

IT'S HOW WE START... AND FINISH

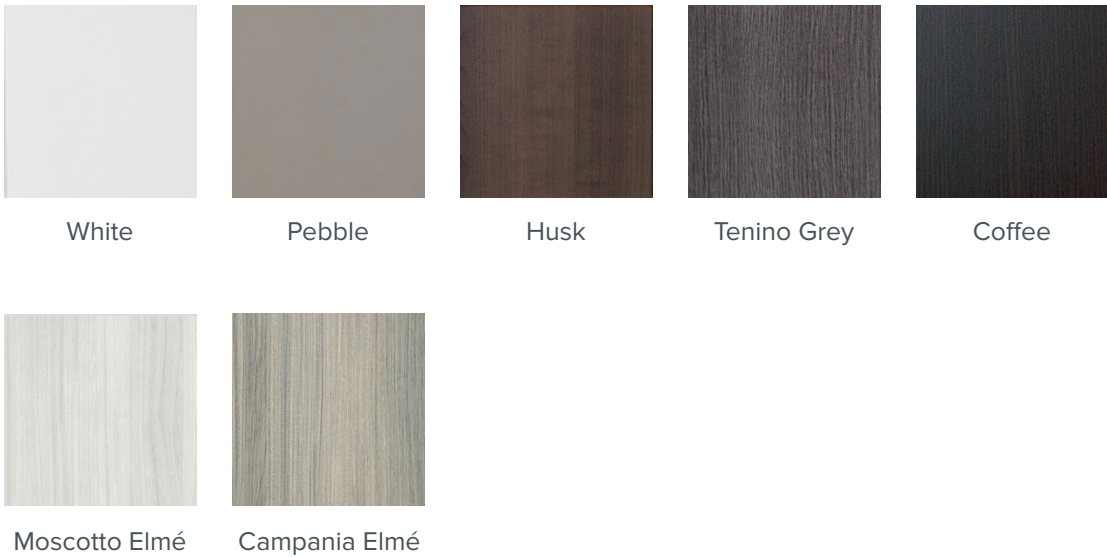

We put our own twist on the old adage, with attention to every step of our cabinetry-making process – especially the finish. That's why Grandview Cabinetry continually invests in finish-related enhancements to make our product finishes richer, stronger, and more durable than ever.

Recently, we have:

- » Incorporated extensive, ongoing training programs to ensure our team uses best practices and spraying techniques
- » Enhanced our finish formulas to incorporate the latest in finishing materials technology
- » Reformulated our stains for even better coverage consistency
- » Adopted the use of a high-grade sealer with top-rated adhesion and build consistency
- » Upgraded our finish line with new ovens for superior curing

The result? Build and appearance like you've never seen before.
