1-Year Limited Warranty

Grandview Cabinetry warrants its products to the original purchaser to be free from defects in workmanship and materials for one year from the date of shipment to the purchaser.

This warranty does not cover misuse, abuse, improper storage, neglect, or installation. It does not cover any expense involved in removing, shipping, or reinstalling any components or products.

This warranty does not cover damage to cabinets, their content, or any fixtures or devices due to improperly installed or adjusted shelves.

Grandview Cabinetry will not assume, nor authorize any person to assume for Grandview Cabinetry, any liability in connection with the sale of Grandview Cabinetry products.

This warranty is in lieu of all other warranties, expressed or implied.

Grandview Cabinetry reserves the right to change design, specifications, and materials as conditions change and improvements are made. Grandview Cabinetry has no obligation to incorporate such changes into products previously manufactured.

Care & Cleaning Instructions

The finish of your cabinets is designed to withstand years of normal everyday use. These instructions will help you care for your cabinets and ensure the beauty of your cabinets for years to come.

Cleaning Cabinet Interior Surfaces

Cabinet interior surfaces are laminated with a material designed to resist scuffs, marks, and most common household spills.

1. To clean the interior surface, simply wipe with a damp cloth or sponge. Dry thoroughly.
2. To remove food residue or grease, use the suds from any common dishwashing liquid and a damp cloth to wipe clean. Dry thoroughly.

CAUTION: When spills occur, clean up the spill and dry the surface immediately. Avoid using a dishcloth to clean or dry cabinet exteriors. Remnants of detergent or grease from the dishcloth may contaminate the surface of your cabinets.

Cleaning Cabinet Exterior Surfaces:

Cabinet finishes feature a quality finish that protects the wood and enhances its natural beauty. To maintain the appearance of your cabinets, we recommend that you clean them at least once a month.

1. Wipe the exterior surface of your cabinets with a clean damp cloth. Dry thoroughly.
2. To remove general soil or grease, use the suds from any common dishwashing liquid and a damp cloth to wipe clean. Dry thoroughly.
3. Excess moisture will damage any cabinet finish. Areas near the sink, range, dishwasher, oven, and baseboards are most susceptible to this type of damage. Be sure to keep cabinet surfaces dry especially in these areas.
4. It is not necessary to wax your cabinets due to the high quality top coat. If you choose to apply a furniture polish or lemon oil treatment to your cabinets, make sure you completely remove any excess wax or oil from the finish in order to avoid a build up that could discolor your cabinets over time.

CAUTION: Avoid using cleaners containing bleach, ammonia, or any type of abrasive (see label). These cleaners can cause damage to your cabinet finish.

Wood & Finish Characteristics

Much of the beauty and appeal of wood cabinetry comes from the natural variations in grain and color inherent in wood. Note that wood color continues to change even after being made into finished cabinetry. All wood, finished or unfinished, will change in color due to exposure to sunlight and natural mellowing with age.

Characteristics of Wood:

Variations in color and grain pattern are a natural characteristic of wood. Color changes may occur as a result of aging, exposure to light, heat, and other natural chemical elements. Color changes are not considered a manufacturing defect and are not covered by the warranty.

In addition, high humidity will cause wood to expand, while low humidity will cause wood to contract. This is especially evident with solid wood center panels. In the case of low humidity, center panel shrinkage is possible and shadow line(s) may appear on the edges of the center panel. This is an acceptable change which will revert back to the original state once the humidity is equalized in the home or environment. It is acceptable for the homeowner to touch up these exposed areas with a stain pen (available from Grandview) or a tinted wood care product such as Old English, without voiding the warranty. The center panel movement is not considered a manufacturing defect and is not covered by the warranty.

Characteristics of Finishes:

Paint Finishes: Paint finishes are different from standard wood finishes. Hairline cracks may appear at the joints due to natural wood movement with seasonal changes in humidity. This will be most notable at panel joints, stiles, and rails.

Stained Finishes: The natural light and dark characteristics of the grain are enhanced as stains are absorbed into the wood. Softer areas of the wood and end grain surfaces accept more stain and can appear darker.

Wood Species:

- » **Maple:** Hardwood with a fine, tight grain. Lighter finishes may yellow slightly with age.
- » **Oak:** Hardwood grain pattern is very evident when a stain is applied.

KCMA Certifications

Grandview Cabinetry is certified by the Kitchen Cabinet Manufacturers Association. We proudly participate in the annual ANSI/KCMA A161.1 Certification Program.

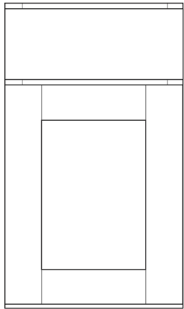

At Grandview Cabinetry, integrity is ingrained in everything we do. We promise to keep manufacturing jobs in America, to take care of our environment, and to produce the highest-quality cabinetry with the certifications to prove it.

Our cabinetry meets or exceeds all requirements, structural tests, drawer tests, door operation tests, and finish tests.

ATHERTON

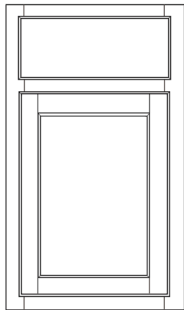

Full Overlay • Flat Panel • Shaker

- Doors are constructed of 3/4" thick solid Maple frames, veneer center panels with mortise and tennon joinery
- Drawer Fronts are constructed of 3/4" solid Maple

CAMDEN

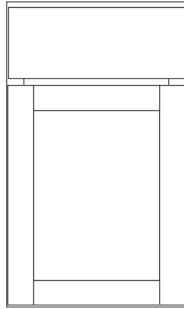

Standard Overlay • Flat Panel

- Doors are constructed of 3/4" thick solid Maple frames, veneer center panels with mortise and tennon joinery
- Drawer Fronts are constructed of 3/4" solid Maple

BEDFORD

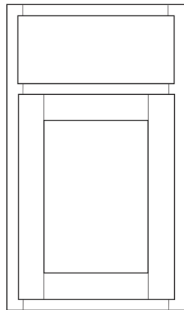

Full Overlay • Flat Panel • Shaker

- Doors are constructed of 3/4" thick solid Maple frames, veneer center panels with mortise and tennon joinery
- Drawer Fronts are constructed of 3/4" solid Maple

CANTON

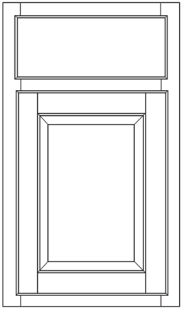

Standard Overlay • Flat Panel • Shaker

- Doors are constructed of 3/4" thick solid Maple frames, veneer center panels with mortise and tennon joinery
- Drawer Fronts are constructed of 3/4" solid Maple

BRIGHTON

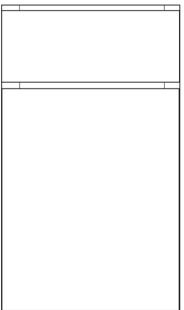

Standard Overlay • Raised Panel

- Doors are constructed of 3/4" thick solid Maple frames, raised center panels with mortise and tennon joinery
- Drawer Fronts are constructed of 3/4" solid Maple

VANCOUVER

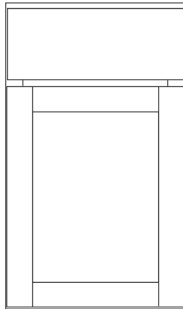

Full Overlay • Slab

- Doors and Drawer Fronts are constructed of Maple veneer and edge banding on a 3/4" thick Medium Density Fiberboard (MDF) substrate

HAMILTON RTF

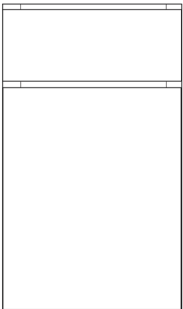

Full Overlay • Flat Panel • Shaker

- Doors and Drawer Fronts are constructed of one-piece Rigid Thermofoil on a 3/4" thick Medium Density Fiberboard (MDF) substrate

SARNIA RTF

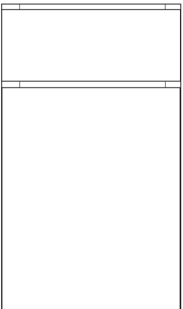

Full Overlay • Slab

- Doors and Drawer Fronts are constructed of one-piece Rigid Thermofoil on a 3/4" thick Medium Density Fiberboard (MDF) substrate

TORONTO LAMINATE

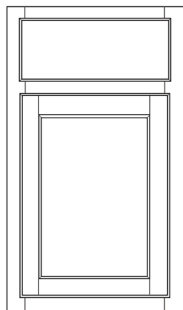

Full Overlay • Slab

- Doors and Drawer Fronts are constructed of Thermally Fused Laminate (TFL) and edge banding on a 5/8" thick particleboard substrate

CAMDEN OAK

Standard Overlay • Flat Panel

- Doors are constructed of 3/4" thick solid Oak frames, veneer center panels with mortise and tennon joinery
- Drawer Fronts are constructed of 3/4" solid Oak

White finish selections feature white laminated cabinet interiors.

All other finishes feature a natural maple wood grain laminated interior.

Construction Features

Standard Wall Cabinet Dimensions: 12" Depth

- 1

FRONT FRAME: 3/4" thick, kiln-dried hardwood; assembled under pressure with glue and screws to offer maximum strength and squareness.
- 2

HINGES: Concealed 6-way adjustable hinge with maximum opening of 108°. **Optional Soft Close available.**
- 3

3/4" SHELVES: 3/4" furniture board full-depth shelves are laminated in light maple woodgrain and edge-banded along front edge.
- 4

TOPS & BOTTOMS: 1/2" furniture board with light maple woodgrain laminate.
- 5

FIBER BOARD BACK PANEL: 1/8" high-density fiber board with a light maple woodgrain interior.
- 6

HANGING RAILS: 1/2" furniture board used as hanging rail.
- 7

SHELF CLIP: High-strength shelf clip with sides pre-bored for shelf adjustment.

- 8

END PANELS

Standard: 1/2" furniture board end panels with light maple woodgrain laminated interior. Exterior end panels are laminated to match cabinet color.

Optional Plywood Construction: 1/2" plywood ends with light maple woodgrain laminated interior. Exterior panels are laminated to match cabinet color. 3/4" shelves, hanging rails, top and bottoms are plywood.

Optional NAUF Furniture Board Construction: 1/2" NAUF furniture board end panels with light maple woodgrain laminated interior. Exterior end panels are laminated to match cabinet color. Shelves, hanging rails, tops and bottoms are NAUF furniture board.

STANDARD BASE CABINET DIMENSIONS:
34.5" height x 24" depth.

Ⓕ indicates 32.5" universal handicap accessible height available.

1 FRONT FRAME: 3/4" thick, kiln-dried hardwood; assembled under pressure with glue and screws to offer maximum strength and squareness.

2 HINGES: Concealed 6-way adjustable hinge with maximum opening of 108°. **Optional Soft Close available.**

3 3/4" SHELVES: 3/4" furniture board shelves laminated in light maple woodgrain and edge-banded along front edge. Standard shelves are half-depth. **Optional Full-Depth Shelves available.** 3/4" shelves are available with plywood construction.

4 DRAWERS
Standard: 1/2" furniture board with epoxy side mount guides. Drawer guides meet or exceed 100lbs. static testing.
Optional Plywood: 5/8" rabbeted joinery with epoxy side mount guides.
Optional Plywood Soft Close: 5/8" rabbeted joinery with undermount soft close guides.
Optional Soft Close: 5/8" hardwood dovetail joinery with undermount soft close guides.

- 5 BOTTOMS:** 1/2" furniture board with light maple woodgrain laminate.
- 6 FIBER BOARD BACK PANEL:** 1/8" high-density fiber board with a light maple woodgrain interior.
- 7 HANGING RAILS:** 1/2" furniture board used as hanging rail.
- 9 CORNER BLOCKS:** Special high-strength plastic injected polyethylene corner blocks.
- 8 END PANELS**

Standard: 1/2" furniture board end panels with light maple woodgrain laminated interior. Exterior end panels are laminated to match cabinet color.

Optional Plywood Construction: 1/2" plywood ends with light maple woodgrain laminated interior. Exterior panels are laminated to match cabinet color. 1/2" shelves, hanging rails, & bottoms are plywood. **Optional 3/4" shelves available.**

Optional NAUF Furniture Board Construction: 1/2" NAUF furniture board end panels with light maple woodgrain laminated interior. Exterior end panels are laminated to match cabinet color. Shelves, hanging rails, tops and bottoms are NAUF furniture board.
